The Q1 2024 results indicate a significant increase both in terms of revenues and Adjusted Operating EBITDA on the same period of the previous year.

The operating performance indicators for Q1 2024 compared with the same period of 2023 are presented below.

In this regard, the Q1 2024 figures include also the full contribution of Sanatorio Triestino S.p.A.², acquired on May 4, 2023 and of the Aurelia Hospital Group, acquired on November 16, 2023, both not present in Q1 2023.

2024 Consolidated Revenues Overview

GHC consolidated revenues in Q1 2024 amounted to Euro 126,136 thousand, up 36.7% on Euro 92,285 thousand in the same period of 2023.

² Including majority interest in Terme del Friuli Venezia Giulia s.r.l.

³ Adjustments: these include non-recurring revenues and costs and one-off costs (e.g. M&A costs)

The increase in revenues of Euro 33,851 thousand is due for Euro 29,452 thousand to the change in scope (approx. Euro 24.4 million concerning the Aurelia Group and approx. Euro 5.0 million Sanatorio Triestino), and with Euro 4,399 thousand concerning the increased production of the companies at like-for-like consolidation scope. .

Consolidated revenues <i>in Euro thousands</i>	1Q 2024 Actual	1Q 2023 Actual	1Q24 vs. 1Q23 Euro '000	1Q24 vs. 1Q23 %
Total	126,136	92,285	33,851	36.7%

<i>of which Sanatorio Triestino + Aurelia Hospital</i>	29,452	-	29,452	n/a

The increased production of the companies at like-for-like consolidation scope (+4.8% on Q1 2023) was driven by the increase in services provided to private patients and to out-of-region patients, up respectively 7.3% and 10.2% on Q1 2023. This confirms the popularity of the Group's clinics and the increasing demand for healthcare services on the Italian market, in addition to the increased services provided to regional patients under the agreement with the NHS, emerging earlier than in the previous year, partly due to the obtaining of the additional budgets assigned by a number of Regions as they seek to reduce patient waiting lists.

2024 Consolidated Costs Overview

Consolidated operating costs in the first three months of 2024, net of Adjustments, totalled Euro 101,064 thousand, increasing Euro 27,541 thousand (+37.5%) on Euro 73,523 thousand in the same period of 2023.

The increase stems for Euro 25,939 from the change in scope and only for Euro 1,602 thousand from the companies at like-for-like scope, highlighting a less proportional increase in operating costs than revenues, thanks to close control of the main operating costs.

2024 Consolidated Operating EBITDA and Adjusted Operating EBITDA

Consolidated Adjusted Operating EBITDA³ amounted to Euro 25,072 thousand, up 33.6% on Euro 18,762 thousand in Q1 2023. The increase of Euro 6,310 thousand relates for Euro 3,513 thousand to the change in scope, of which approx. Euro 2.5 million concerning the Aurelia Group and approx. Euro 1.0 million Sanatorio Triestino, with Euro 2,797 thousand relating to the companies at like-for-like consolidation scope.

The Adjustments, negative for Euro 21 thousand at March 31, 2024, entirely comprises M&A costs, decreasing on the first quarter of 2023, in which they were positive for Euro 1,040 thousand as the COVID reimbursements related to previous years were received for Euro 1,301 thousand, net of the COVID costs incurred for Euro 234 thousand and M&A costs for Euro 27 thousand.

The Group's Adjusted Operating EBITDA margin was 19.9%.

2024 Consolidated EBIT overview

EBIT in Q1 2024 totalled Euro 17,601 thousand, increasing Euro 3,636 thousand (+26.0%) on Euro 13,965 thousand in Q1 2023.

This result includes amortisation, depreciation and write-downs in the period of Euro 5,969 thousand, increasing Euro 965 thousand on Q1 2023, mainly due to the change in the consolidation scope, in addition to adjustments and other provisions for Euro 1,481 thousand, increasing Euro 647 thousand on Q1 2023, mainly as a result of the greater provisions for healthcare lawsuits, net of the negative releases. We highlight however that the percentage of adjustments and other provisions was substantially in line with historic trends at 1.2% of revenues.

2024 Consolidated Net Profit overview

The Net Profit was Euro 10,089 thousand, an increase of Euro 1,400 thousand on Euro 8,690 thousand in Q1 2023.

This amount takes account of net financial charges of Euro 3,490 thousand, increasing Euro 1,274 thousand on Q1 2023, as a result of higher interest rates and of the average debt as a result of the change in scope, and income taxes of Euro 4,022 thousand, increasing Euro 962 thousand on the same period of the previous year, mainly due to the increased pre-tax profit.

Balance Sheet

A breakdown of the Group's condensed consolidated balance sheet at March 31, 2024 and December 31, 2023 is provided below.

V Shareholders' Equity	312,935	300,889	12,046
VI Total sources of financing	519,705	506,632	13,073

Fixed capital at March 31, 2024 amounted to Euro 631,026 thousand, decreasing Euro 2,827 thousand on December 31, 2023, mainly due to the decrease in financial assets as a result of the redemption of the policies held by Sanatorio in the "Gestione Speciale Ri.ALTO" fund of the Generali Group (Euro 2.3 million).

Net operating working capital at March 31, 2024 of Euro 37,770 thousand increased Euro 19,046 on December 31, 2023, mainly due to the normal and temporary increase of trade receivables as a result of the increased production in Q1 2024 and the receivables not yet collected regarding a portion of the out-of-region production in 2023. It should be noted that these receivables are expected to be collected during the second quarter of 2024, with a resulting positive impact on Net Operating Working Capital.

The increase in net liabilities is mainly due to the declaration of income taxes for the period.

With regards to the other liabilities, COVID-19 resulted in the recognition at consolidated level in 2020 and 2021 of funding advances disbursed by the main regions in which the Group operates. These advances at March 31, 2024 were unchanged on December 31, 2023 and amount to approx. Euro 10,535 thousand.

Net working capital therefore increased Euro 13,212 thousand as a result of the increase in net operating working capital.

Provisions at March 31, 2024 decreased Euro 3,436 thousand on December 31, 2023, due to: (i) the decrease in the Post-employment benefit provision for Euro 3,092 thousand, due mainly to the movement in the rates used for the calculation as per IAS 19 (lower revaluation rate than the discount rate); ii) the decrease in the risks provisions for

Euro 345 thousand, as a result of net accruals (excess of accruals over releases) totalling Euro 1,481 thousand, mainly concerning healthcare risks (Euro 922 thousand) and local healthcare authority risks (Euro 562 thousand), net of capital utilisations for Euro 1,826 thousand, principally concerning healthcare lawsuits (Euro 1,457 thousand) and local healthcare authority risks (Euro 301 thousand).

Net capital employed at March 31, 2024, amounted to Euro 519,705 thousand, an increase of Euro 13,073 thousand on Euro 506,632 thousand at December 31, 2023.

Group Shareholders' Equity at March 31, 2024 totalled Euro 310,885 thousand, increasing Euro 11,999 thousand on December 31, 2023, mainly due to the profit for the period (Euro 10,059 thousand), and the actuarial effect on the post-employment benefit IAS 19 reserve (for Euro 2,033 thousand), net of the acquisition of treasury shares (Euro 77 thousand).

Net Financial Position

The net financial debt was determined in accordance with the framework provided by Recommendation ESMA/32-382-1138 of March 4, 2021 and Consob attention call No. 5/21 of April 29, 2021.

A breakdown of the composition at March 31, 2024 and December 31, 2023 is provided below.

At March 31, 2024, the Net Financial Position (NFP) of the Garofalo Health Care Group amounts to Euro 206,771 thousand, comprising gross financial debt of Euro 230,757 thousand (Euro 69,206 thousand of current financial debt and Euro 161,551 thousand of non-financial debt) and liquidity of Euro 23,986 thousand. The NFP increased Euro 1,027 thousand compared to December 31, 2023 as a result of the normal dynamics of net working capital, which increased during the first quarter of the year as a result of the higher production compared to the last quarter of the previous year.

4. INVESTMENTS

4.1 Recurring investments

During the first three months of 2024, the Group undertook investments in property, plant and equipment and intangible assets of a recurring nature. These were designed to support the production capacity of the

Group's healthcare facilities and implement technological and the functional upgrades to medical devices and equipment that are essential in maintaining high quality standards in the services offered to patients.

4.2 Capex in long-term development and organisational restructuring

In Q1 2024, the Group continued the preparatory work for a number of investments in capex of a non-recurring nature within the framework of long-term development and organisational restructuring, with expansion projects designed to increase production capacity and diversify the type of services offered. These include, for example, the building of the new Cardiovascular Heart Centre at Aurelia Hospital.

It should be noted that in January 2024, GHC Real Estate finalised the purchase of the property where the subsidiary Aesculapio's operations are undertaken.

5. SIGNIFICANT EVENTS AFTER THE END OF THE PERIOD

There were no subsequent events to quarter-end.

6. OUTLOOK

The sharp increase in private "out-of-pocket" activity recorded by the Group during both 2023 and early 2024 is clear confirmation of exponentially growing healthcare needs.

In this context, the Group will continue to fully execute its accredited activity, also including the increased resources which have already been partly allocated to reduce the waiting lists and also particularly strengthening and developing its private "out-of-pocket" patient activities.

With reference to the Aurelia Hospital Group, the actions undertaken by the GHC Group enabled in Q1 2024 an improved performance on 2023, which was considerably affected by the liquidation process that arose due to irreconcilable disagreements among shareholders. For the remainder of 2024, GHC expects the efficiency and reorganisation activities to yield the expected benefits by further improving the margins of the acquired facilities. In this regard, it should also be noted that the Lazio Region, with a resolution of December 28, 2023, recognised an extra-budget of €1.6M in favour of Aurelia Hospital starting from 2024, with the allocation of additional 16 authorised and accredited General Medicine beds, to date already in full occupancy.

Finally, GHC confirms its medium-term objective in relation to the new acquired companies, which envisages the achievement - progressively over the next few years - of a margin aligned with that expressed by the other complex hospital facilities of the Group.

7. MANAGEMENT AND CO-ORDINATION

Garofalo Health Care S.p.A is not subject to direction and co-ordination by another entity. Garofalo Health Care S.p.A is responsible for direction and co-ordination of all its subsidiaries.
